

## NEVO DROM

Career and educational Perspectives for Roma

**EmpoR- EmpowerRoma: Equal opportunities through qualification**

28. Februar 2024

# Die Wiener Volkshochschulen (VHS)

- ▶ As the largest adult education institution in the German-speaking region, VHS offer educational opportunities that support people in improving their situation through their own efforts.
- ▶ With 35 locations throughout Vienna, we are a true educational provider for all citizens. Together with the City of Vienna, we also run numerous projects to give people perspectives. We support students with learning support projects or youth coaching and in many cases prevent them from leaving the educational process early. People who have already completed their school journey can gain educational qualifications with us at low cost or take part in further training programs that strengthen their position in the labor market.

A poster for NEVO DROM, a project providing free career, labor market, and education counseling in various languages. The poster features a large red wheel with blue and green spokes, set against a blue and green background. The text is in white and green. Logos for Stadt Wien, VHS, and the Federal Ministry of Labor and Economic Affairs are at the bottom.

Jelena Zlojutro, dipl. iur. - Project management  
Mag. rer. nat. Tanja Vasic – Advisor

## Target group and goals of the NEVO DROM project

**NEVO DROM is aimed at adult Roma who are inactive, unemployed, deskilled or in precarious employment.**

Roma should be supported in entering the Austrian labor market and the Austrian education system. Furthermore, attention should be drawn to the situation, concerns and needs of the Roma ethnic group in the majority population in order to contribute to better mutual understanding.
