2ND MEETING OF THE DANUBE REGION PLATFORM ON CENTRES OF VOCATIONAL EXCELLENCE

8-9 NOVEMBER 2022
VIENNA, AUSTRIA

Carmen MUȘAT carmen.musat@tvet.ro
National Center for TVET Development

Current national developments and policy priorities regarding vocational excellence and/or CoVEs

PROGRAM	POLICY PRIORITIES	Action 2022
The National Recovery and Resilience Plan Periode: 2022 – 2026	R4. Creating a complete vocational route for VET - 16. The development of 10 regional consortia and the development and endowment of 10 integrated professional campuses (the development of dual education consortia by setting up an inter-institutional working group, made up of representatives of the Ministry of Education, the Ministry of Labour and Social Protection, of vocational and technical education units - pre-university and university - and of the business environment).	Carrying out the proposal for a normative act to modify the current legislative framework - Elaboration of the methodology for organizing the full dual route and the new qualifications resulting from the full dual route - is in the final stage of elaboration
	- 17. The transformation of agricultural high schools into professionalization centres.	Infrastructure preparation through other projects and programs

10 regional consortia and the development and endowment of 10 integrated professional campuses

- ✓ **The consortia for dual education will be organized according to the criteria of the Centres of Excellence: partnership between VET schools, technological universities, local community and Economic Operators / Companies**
- ✓ **10 modern campuses for pupils and students will be built (new buildings with low energy consumption, for practical activities of students, equipped with equipment and digital technology)**
- ✓ **The partnership agreement provides clear responsibilities for each partner within the consortium**
- ✓ **The methodology also contains criteria for evaluating the consortium**

Center of Excellence for Agri-Food and Sustainable Development Educational Resources

- ✓ **Partnership Agreement for Agricultural Education and Training between the Ministry of Agriculture and Rural Development in Romania and the Ministry of Agriculture, Nature and Food Quality in the Netherlands (2019)**
- ✓ **the strategic partnership with GroenPact – the Dutch alliance for promoting innovation in the field of green education**
- ✓ **Agricultural Education Portal - <https://agrieduportal.com>**

It brings together

- **53 VET schools in the field of agriculture**
- **7 universities în the agriculture field**
- **4 research institutes**
