

# **2<sup>nd</sup> MEETING: DANUBE REGION PLATFORM ON CENTRES OF VOCATIONAL EXCELLENCE**

**A REGIONAL APPROACH TO  
COOPERATING ON  
VOCATIONAL EXCELLENCE**

**ONLINE**

**8-9 NOVEMBER**

# Workshop to identify areas for cooperation on going green

Rainer Stifter, Energon GmbH

## AGENDA

Introduction by participants

Keynot speech

Identify areas for cooperation on going green

## Definition „green skills“

UNIDO: Green skills are the knowledge, abilities, values and attitudes needed to live in, develop and support a sustainable and resource-efficient society

OECD: Green skills include specific skills to modify products, services or operations due to climate change adjustments, requirements or regulations.

EUROPEAN UNION

European Training Foundation

➔ Leiria (Portugal)

GREENOVET brings together regional VET providers at different levels (upper-secondary VET and higher VET), local companies (larger ones and SME), sector and employer representatives, regional governments, as well as regional innovation agencies.

However, it also stretches to a national level by involving national ministries and social partners as associated partners, assuring coordination and coherence across governmental levels.

DUŠANA METODA JANOTU  
Čadca, Slovakia**

- Project 1: Enviroproject: Let's breathe new life into the forgotten space of our school
- Project 2: The Green School
- Project 3: The Teaching Garden

## Good practice in the area of green skills

Construction sector

Tourism

European e-Transport Network for VET

## Green projects under Cooperation partnerships

Circular Economy  
Public Building stock Renovation  
renewable energy  
sUSTainable FINANCE  
Smart Metering and home Automation technologies  
Automotive Life Cycle Assessment

Water  
Wineries  
hydrogen fleets  
Green Entrepreneurs

## Green projects under exchanges of practices

Greening VET curricula for electricians

Green Insulation Skills for Construction Workers

European e-Transport Network for VET - ETN4VET network

Enhancing Skills for Sustainable and Eco-Friendly Tourism

Empowering Green Entrepreneurship

## Collecting ideas

- Which initiatives in the area of green skills exist in your countries already and could be leveraged
- Which initiatives in the area of green skills are under preparation / you would like to establish

## Collecting ideas

How to further develop the platform and possible next steps

- Which topics would you like to focus on for further policy exchange?
- In which areas do you see potential for cooperation between CoVEs?
- Which opportunities for support could be used (funding opportunities, existing networks, etc.)?
