

Seminar

Regional capacities for quality assurance and their relation to development and implementation of NQFs

Biograd na moru, Croatia, 28 June 2013

Aim of the Seminar:

The purpose of the Seminar is to address the issue of quality assurance systems in relation to the national qualifications frameworks. In this context, the Seminar aims to review current national QA arrangements, with due regard (where applicable) to general, vocational and higher education. Further objective is to contribute to efforts of understanding how these existing QA systems respond to development and implementation of NQFs.

In order to enhance regional cooperation and networking for promoting QA the following countries are cordially invited to provide information and prepare a presentation on the state of play of their national QA arrangements, NQFs and their interrelations: *Albania, Bosnia and Herzegovina, Bulgaria, Croatia, Kosovo, Macedonia, Moldova, Montenegro, Romania and Serbia.*

The participating countries are invited to nominate two participants for this event and to propose a possible key speaker with relevant expertise who can be invited as an expert in QA with regards to different educational sectors (e.g. in VET, HE) or as an QA expert in the context of implementation of NQFs.

Friday 28 June 2013
